Reception to follow a presentation by Dr. Sun
The Board of Directors of
The Rudolf L. Baer Foundation for Skin Diseases
and
Irwin M. Freedberg, M.D.
George Miller McKee Professor and Chairman of the
Department of Dermatology
cordially invite you to
a celebration honoring the naming of
Tung-Tien Sun, Ph.D.
as the first Rudolf L. Baer Professor of Dermatology
at New York University Medical Center
The Rudolf L. Baer Foundation for Skin Diseases was founded in 1975 to provide research support for young physicians and scientists in the Department of Dermatology at NYU Medical Center, one of the most prominent academic dermatological departments in the country. Dr. Baer served as Chairman of the Department for twenty years. In creating the Foundation, Dr. Baer and his colleagues foresaw a time when government cutbacks and changing priorities would limit funding for medical research and when this limited funding would discourage brilliant young minds from pursuing research careers which are fundamental to the development of new approaches and treatment. Unfortunately, such a time has come.

The Baer Foundation salutes the generous and concerned individuals and organizations who have been responsible for the advances made.

Board of Directors

Thomas H. Baer, Chairman
Andrew R. Baer, President
Warren Weinstock, Treasurer
John R. Baer
Rudolf L. Baer, M.D.
A. Bernard Ackerman, M.D.
